Re: Application number 10/518,477
Filing Date: 12/20/2004
Name of Applicant: Tom Kusic
Invention Title: TANDEM POWERED POWER TILTING AIRCRAFT

Attention: Examiner Mr. ROBERT P. SWATEK

On July 12, 2007 I attempted to fax an amended specification but encountered a paper feed problem on the fax machine and had to stop the transmission. The page counter indicated that 39 pages had been sent. A second fax transmission was then performed and should have shown that 64 pages were transmitted, but my counter indicated that 61 pages were transmitted. I believe that the 64 pages may have been transmitted correctly, but if some have not come through or have not come through correctly, please inform me of any pages that may need to re-submitted. Please ignore the first fax that indicated that 39 pages had been sent, and accept the second fax that subsequently followed.

Yours sincerely,

T. Kusic
